Vintage Marshall 20 Channel Mixing Desk - 34

Vintage Marshall 20 Channel Mixing Desk. An original, Marshall built 20 channel analogue mixing desk, formerly owned and used by acclaimed Bristol based engineer, collector and musician Greg Latham. Possibly built circa 1972/3. Prior to his passing Greg indicated that this desk was originally purchased as part of a deal including elements of Led Zeppelin's 'back line' but sadly no supporting documentation exists and we cannot confirm that this desk was used by the band. Please contact the auction house for more information on the desk. A film about Greg Latham selling another of his vintage desks is available to view at the following link - <http://www.soundtechniquesmovie.com/sound-techniques-lost-found/>
